

I just want to let you know how important one of the radio stations in our city is. Airl radio station is broadcast in Wichita and I feel it is an extremely important part of our city. This station allows me to enjoy the type of Christian music that I enjoy. I am able to have this station on and know that I will enjoy everything I hear and that it will put me in a positive mood. I know this opinion is felt by other people I know. My friends and family also listen to this channel and value the impact it makes. We are able to have a connection with other Christians throughout the country via this station which is broadcast all over the country. I hope that you allow all stations like Airl to stay on the air because it is an asset to our community. Thank you.
